THE SELF-LOADING WINS

The DB X35 Big Bag - Self-loading mobile mixer for Big Bag - to use its technical name - saw Fiori Group win the 22 SaMoTer Innovation Award. This concrete mixer are capable of automatically loading pre-packaged bags of cement and aggregates to prepare the mixture, thereby reducing work times, dispersion of dust on construction sites and wastage of materials. The new self-loading mobile mixer is extremely versatile and the bag may contain any dry component of the mixture or a pre-packaged blend, thereby avoiding the need to store aggregates or other dry components in bulk quantities on site.
