## [SDLG to expand product range with compact wheel loader at CONEXPO 2017](#)

**Dec 21, 2016 05:58 pm | marelime**

The company is extending its lineup to include a compact, 1.0 yd3 capacity wheel loader that will be price competitive with large skid steer loaders. SDLG will debut a new compact wheel loader – the SDLG L918F – at CONEXPO 2017 in Las Vegas, Nevada. The company will occupy Gold Lot Booth G3890, an outdoor ...

### **About Us**

Construction Shows is an event and news information provider for the building construction and heavy equipment industry. Leaders and influencers in the construction arena can stay informed about important events in the construction calendar, such as conferences, exhibitions and trade fairs. It also provides marketing services and promotion opportunities for the construction event organizers and other construction related businesses.

In addition, the website highlights important developments within the industry, blogging extensively on economic trends, company news and construction projects of particular interest. With a dedicated team working to keep the event calendar up-to-date at all times, [ConstructionShows.com](#) offers a valuable resource for conference participants, exhibitors and visitors alike, as well as providing valuable insights into the highly dynamic world of construction.
