

12-13 MARCH 2025 • VERONA, ITALY

*First
Edition*

PAVING & CONGRESS SHOW™

THE BEST WAY TO GO

Welcome to PAVING SHOW & CONGRESS 2025

– the exhibition-congress specifically for equipment, raw materials, technologies and services for the road paving sector.

GENERAL INFO:

Date: **12–13 MARCH 2025** • Time: 09:00 – 18:00

WHERE:

Paving Show & Congress 2025 will be held in the **Palaexpo Congress Center at Veronafiere** – an independent structure, easily accessible and with a large car parking forecourt. .

Free entry with mandatory registration. Trade Only.

**12–13 MARCH, 2025
VERONA, ITALY**

**PAVING
& CONGRESS
SHOW™**

*First
Edition*

PAVING SHOW & CONGRESS comes forward with a smart format:

• **Two-day** event

• **A Round Table on both days of the event**

organized in collaboration with Partners **ANAS, ANCE, CECE, UNACEA, UNEM** and with questions from road building companies, planners, site directors, mayors, councillors, Public Administration technical offices and motorway and tunnel concessionaires

• **A ready-to-use “turnkey” formula** designed to optimize time and costs

• **Exhibitor** Workshops

**THE BEST
WAY
TO GO**

WHY EXHIBIT

1

Present your innovative solutions to a market increasingly keen to optimise production processes, improve performance and increase margins.

2

Set in motion direct dialogue with road building companies and public administration to encourage the exchange of ideas and the implementation of effective solutions.

3

Involve an audience that is increasingly aware of digitalisation and environmental sustainability issues.

4

Take an active part in the debate about new technologies and innovative solutions with stakeholders in the sector, sharing and/or integrating reciprocal knowledge and processes.

VISITORS

• BITUMEN AND ASPHALT SECTOR OPERATORS IN GENERAL

• ROAD BUILDING COMPANIES

• SITE DIRECTION

• COMPACTION AND PAVING MACHINERY OPERATORS

• OIL COMPANIES AND BITUMEN RETAILERS

• ROAD INFRASTRUCTURE DESIGNERS

• PUBLIC ADMINISTRATIONS

• MOTORWAY AND TUNNEL CONCESSIONAIRES

• ROAD SAFETY OPERATORS

• MATERIAL TESTING LABORATORIES

• WATERPROOFING SPECIALISTS

PRODUCT SECTORS

EXHIBITOR PRODUCTS

MATERIALS

- Additives
- Stone aggregates to build road embankments
- Street furnishing
- Road barriers
- Industrial bitumen
- Bitumen modified with polymer additives
- Special bitumens
- Road bitumen
- Modified road bitumen
- Special road bitumens
- Special bituminous conglomerates
- Drains
- Emulsions
- Fibres
- Steel mill slag filler
- Fluxes and release agents
- Geo-textiles
- Viscous coupling units
- Bituminous membranes
- Elastomer polymers
- Rubber powders
- Resins
- Road signs
- Sealants

- Rotary aggregate screening equipment
- Free aggregate oscillation vibrating screening equipment
- Grit spreading equipment
- Dynamic testing equipment
- Automixers for poured asphalt
- Grab buckets
- Sweeping buckets
- Bio-separators
- Diathermic boilers
- Road core drills
- Fork lifts
- Shears
- Chippers
- Bitumen transport tanks
- bituminous emulsion spraying tanks
- Co-generation systems
- Single drum compactors
- Waste compactors
- Tandem compactors
- Bituminous conglomerate production plant components
- Containers
- Adaptable rammers
- Deflectometers
- Articulated dumpers
- Fixed Dumpers
- Ductility machine
- Track-laying excavators
- Wheeled excavators
- Extruders
- Crushing mills
- Fixed crushers
- Road milling machines
- Cranes
- Generators
- Modified bitumen (PMB) production plant
- Continuous bituminous conglomerate production plant
- Cold conglomerates production mixing plant
- Fluxed bitumen production plant
- Discontinuous bituminous conglomerate production plant

- Bituminous conglomerate production plant
- Bituminous emulsion production plant
- Asphalt mixing plant
- Bagging machines
- Roadside green maintenance machinery
- Road sign production machinery
- Road paving scarifying and granulating machinery
- Road sweeping machines
- Hydraulic hammers
- Mini excavators
- Skid steer loaders
- Mixers
- Motor grader
- Fork lift transport tractors
- Container transport tractors
- Telehandlers
- Track-laying loaders
- Wheeled loaders
- Penetrometers
- Vibrating plates
- Waste and scrap grabs
- Rheometers
- Trailers
- Heap turners
- Manually guided rollers
- Compactor rollers for excavations
- Compactor rollers for soil and asphalt
- Compressor rollers
- Wheeled rollers
- Road rollers
- Tandem rollers
- Heat exchangers
- Cold scarifying machines
- Semi-trailers
- Industrial separators
- Bitumen storage tanks
- Simultaneous spreaders
- Grit spreaders
- Emulsion and bitumen sprayers
- Stabilizers
- Fixed backhoe loaders
- Impact tester
- Stability tester
- Track-Laying Tractors

- Shredders
- Mobile screens
- Rubber-mounted thermal asphalt container tanks
- Vibrating rammers
- Vibrating finishers

SERVICES

- Category associations
- Authorities
- Institutions
- Material analysis and testing laboratories
- Trade press and media
- Universities

EQUIPMENT

- Dust/powder suppression
- Bituminous conglomerate production plant accessories
- Asphalt analysis equipment
- Diagnostic and measurement equipment and tools
- Drum casting equipment
- Bituminous conglomerate recycling equipment
- Inert material processing equipment
- Aggregate crushing equipment
- Constrained oscillation aggregate screening equipment
